

Museum on Main Street OVERVIEW

New Harmonies

Developing Local Exhibitions and Programs

Museum on Main Street exhibitions lend themselves to a wide variety of local exhibitions and programming, and the *New Harmonies* exhibition is no exception. The information gathered in this section of the exhibitor's manual is designed to help local venues develop local exhibitions and new ideas for programming, or build upon exhibition and programming ideas developed and implemented in other communities across the country. If you see an idea that you'd like to try, go ahead and make it yours; adapt it to better suit *your* community, *your* resources, and *your* audience. Or, if you have a new idea, we can include among this information inspire other tours! In this section of the manual you'll find:

- **Guidelines and Resources for Developing Local Exhibitions** including suggestions for community partners and ideas for local exhibitions. Additional exhibition development resources are provided on-line.
- **Creative Ideas for Programming** including bibliography and web resources and a comprehensive listing of local program and event ideas.
