

Introduction for Selecting Venues

Every state humanities council has different goals and objectives for their participation in Museum on Main Street. These two documents are designed to help state council board and staff determine their specific priorities for their MOMS program. Once these are identified, your search for and selecting of appropriate venues is much easier and clearer. As a planning exercise, state council board and staff can complete the Selecting Venues Worksheet and discuss their answers. The Selecting Venues Overview provides some of the reasons and priorities that state councils have for their participation in MOMS.
